

**Course number and grade:** 254 Chem

**Course Name:** Qualitative analysis

**Modules:** (theoretical + practical)(1+1)

**Level:**111

**Laboratory time** :sun 8-10

**Topics of course:**

-Ionic compounds: divided and practical methods for detection of ions.

- Cations: common characteristics and methods of public disclosure

- Analysis of unknowns of the cations and anions -

Analysis unknowns general

**Grade classification:**

Part 1:ionic

Report 4

The theoretical part 3

The Operational part 8

Part 2: Cation

Report 4

The theoretical part 3

The Operational part 8
