Are you clever? 😊 Let us see!!!

Read out loud the text inside the triangle below.

More than likely you said, "A bird in the bush," and.....
if this IS what YOU said, then you failed to see
that the word THE is repeated twice!
Sorry, look again.

Next, let's play with some words.

What do you see?

In black you can read the word **GOOD**, in white the word **EVIL** (inside each black letter is a white letter). It's all very physiological too, because it visualizes the concept that good can't exist without evil (or the absence of good is evil).

Now, what do you see?

You may not see it at first, but the white spaces read the word **optical**, the blue landscape reads the word **illusion**. Look again! Can you see why this painting is called an optical illusion?

What do you see here?

This one is quite tricky!
The word **TEACH** reflects as LEARN.

Last one.

What do you see?

You probably read the word ME in brown, but.....

when you look through ME

you will see

YOU!

Test Your Brain

This is really cool. The second one is amazing so please read all the way though.

AL ZHEIMERS' EYE TEST

(i love this part... its absolutely amazing!)

Count every " F " in the following text:

FINISHED FILES ARE THE RE
SULT OF YEARS OF SCIENTI
FIC STUDY COMBINED WITH
THE EXPERIENCE OF YEARS...

(SEE BELOW)

HOW MANY ?

WRONG, THERE ARE 6 -- no joke.

READ IT AGAIN!

Really, go Back and Try to find the 6 F's before you scroll down.

The reasoning behind is further down.

The brain cannot process "OF".

Incredible or what? Go back and look again!!

Anyone who counts all 6 "F's" on the first go is a genius.

Three is normal, four is quite rare.
