Experience:

(A) Internship: I spent total of one year internship (July 1997 - July 1998) rotating in different departments as following:

- ◆ **Obstetrics and -gynecology**
- ◆ **Medicine**
- ◆ **Surgery**
- ◆ **Pediatrics:**

(B) Residency:

- July 1998 - February 1999, I joined King Faisal Specialist Hospital and Research Center (**K.F.S. & R.C.**) as Pediatric Resident.
- February 1999 - July 2000, I joined pediatric department at **K.K.U.H.** planning for scholarship to North America sponsored by King Saud University, in Pediatrics and Pediatric Intensive Care fellowship.
- July 2000 - 2003, I've joined McGill University as a Pediatric resident

- **(C) Fellowship:**
- July 2003- 2006, I've joint Pediatric Critical Care Medicine Fellowship at McGill University, Montreal Children Hospital. The PICU there is equipped with (12) acute care beds and (4) step down beds, and is staffed with (7) qualified pediatric intensivest. The average admission rate is 500 cases per year including 200-250 complex congenital heart disease.
- I was involved actively and directly in evaluating and managing acutely ill children. I assumed the role of team leader during unite rounds and cardiac arrest codes.
- **Procedures**: during this period, I was able to practice different procedures necessary for PICU career. This includes
 - Central venous access
 - Intubations
 - Chest tubes
 - Peritoneal & pericardial centhesis
 - Procedural sedation.
- Also, I had the opportunity to gain experience in
 - Extra Corporeal Membrane Oxygenation (ECMO) / Extracorporeal Life Support (ECLS)
 - Continuous Renal Replacement Therapy (CRRT)
 - Left Ventricular Assisted Device (LVAD)
 - Berlin's Heart
- I was pleased to interact with different subspecialties and collaborate with different institutions. This has improved my administrative, collaborative and communication skills.
- Also, I was pleased to interact with available experts in medical education which enriches my experience in this field and activate my interest in teaching and education.
- By the end of the program, I felt that I've progressed well in all objectives of our program and technical skills with an increasing leadership role as well as a teacher for residents and students.
- Indeed, I've enjoyed working with various staffs that are full of clinical and academic experiences and their constructed criticism was of great benefit.

(D) PICU Consultant:

- October, 2006: I join Pediatric Intensive Care Unit , department of Pediatrics, King Khalid University Hospital as an Acting consultant of Pediatrics and P.I.C.U
- January,2007 I was appointed to be Consultant of Pediatrics and P.I.C.U , Division Head of P.I.C.U.
- PICU at KKUH is a tertiary care , eight acute care beds unite with average admissions of 300 per year and occupancy rate of 90%.

Administrative Experience:

- Member of Pediatric Critical Care Fellowship committee, McGill University 2005-2006.
- Member of the Postgraduate and continuous medical education committee, department of Pediatrics, King Khalid University Hospital as of October 2006.
- Member of Pediatric Critical Care Fellowship committee, Saudi Council for Health Specialties as of November 2006.
- Division head, Pediatric Intensive Care Unit , King Khalid University Hospital as of January 2007.
- Chair of the D.N.R committee , department of Pediatrics, King Khalid University Hospital as of May 2007.
- Member of the undergraduate medical education committee, department of Pediatrics, King Khalid University Hospital as of May 2007.

Area(s) of Interest:

- Pediatric cardiac critical care
- Acute lung injury
- Medical education
- Medical ethics

Publication(s):

- The Ethics Of Using Innovative Therapies In The Care Of Children. Ayman Al Eyadhy , Saleem Razack; Pediatrics & Child Health; (March 2008.)
