

Farm Animal Physiology Laboratory
ANP 253

Course Description :

The Subject	No. of Weeks
Introduction to Microscopes	1
Simple Microscopes	2
Electronic Microscopes	3
Solutions and Materials	4
kinds of Receptors on The Epidermis	5
Examination	6
Introduction to Physiological Systems in Farm Animals and Birds	7
Anatomical Differences of Physiological Systems	8
Anatomical Studies of Physiological Systems in Bare eye	9
Histological Specimens Studies of Different Cells by Microscope	10
Histological Specimens Studies of Different Tissues by Microscope	11
Blood Analysis	12
The Use of Spectrophotometer	13
Examination	14
