

TABLE OF CONTENT

	Page
Chapter One - Education and Information Technology Context.....	1
Introduction.....	1
The Need for Information Technology.....	2
Investment in Information Technology and Growth of Its Use.....	3
Information Technology in Business and Education.....	5
Information Technology Planning.....	6
Statement of the Problem.....	10
The Purpose of the Study.....	12
Research Questions.....	13
Significance of the Study.....	14
The Delimitations and Limitations of the Study.....	15
Scope of the Study.....	15
Definition of Terms.....	17
Organization of the Study.....	20
Chapter Two – Review of the Literature.....	22
Introduction.....	22
Education in Saudi Arabia.....	23
Background of Education in Saudi Arabia.....	21
Teachers’ and Principals’ Perceptions.....	35
The Constructivist Theory.....	43
The Humanistic Model.....	41

The Innovation of Change.....	51
Innovation and School.....	51
Resistance to Change.....	54
The Process of Change.....	57
Restructuring Schools Through Change.....	59
Leadership.....	59
Staff Development.....	60
Information Technology and Human Needs.....	62
Magnitude of Staff Development.....	68
Models of Staff Development.....	74
Effective Information Technology Staff Development.....	78
Information Technology Plan.....	81
Development of an Information Technology Plan.....	85
Characteristics of the Information Technology Plan.....	87
Coordinator of Information Technology.....	88
Information Technology Supports Administration.....	89
Stakeholders of Information Technology Plan.....	92
Goals and Objectives of an Information Technology Plan.....	94
Information Technology Plan Infrastructure.....	98
Summary.....	104
Chapter Three - Methodology.....	106
Introduction.....	106
Population.....	108

Sample Description.....	109
Instrumentation.....	111
Item Analysis.....	114
Pilot Study.....	115
Validity.....	116
Reliability.....	119
Data Collection Procedure.....	119
Data Analysis Procedures.....	120
Chapter Four - Data Analysis.....	123
Introduction.....	123
Demographic Analysis.....	124
Information Technology in Instruction.....	136
Information Technology Plan.....	165
Information Technology in Administrative Work.....	179
Knowledge and Skills of Information Technology.....	202
Information Technology Staff Development.....	228
Constructivism and Behaviorism Approaches.....	234
Qualitative Data Analysis.....	243
Chapter Five - Summary, Discussion, Further Findings and Recommendations.....	250
Summary and Discussion.....	250
Answer Research Question One.....	252
Answer Research Question Two.....	261
Answer Research Question Three.....	266

Answer Research Question Four.....	273
Answer Research Question Five.....	277
Answer Research Question Six.....	280
Answer Research Question Six.....	283
Observations.....	284
Recommendations.....	285
Further Studies.....	289
Implication of the Study.....	289
Conclusion.....	292
References.....	293
Appendices.....	294
Appendices.....	331
Appendix A Cover Letter.....	332
Appendix B Survey Instrument.....	334
Appendix C Content Validity.....	340
Appendix D The Mean and Standard Deviation of the Participant Perceptions toward Information Technology in Instruction.....	345
Appendix E The Mean and Standard Deviation of the Participant Perceptions toward Information Technology Plan.....	348
Appendix F The Mean and Standard Deviation of the Participant Perceptions toward Information Technology in Administrative Work.....	350

Appendix G	The Mean and Standard Deviation of the Participant's Knowledge and Skills of Information Technology.....	353
Appendix H	The Result of the Multivariate Test.....	356
Appendix I	Analysis of Variance.....	358
Appendix J	Reliability.....	360
Appendix R	IRB Letter.....	363
Appendix L	Arabic Version.....	365
Appendix M	Abstract.....	366

List of Tables

Table	Page
1. Information Technology in Business and Education.....	5
2. Courseware Production in Saudi Arabia	33
3. Distribution Number of Administrators and Teachers (Male and Female) in High Schools of Ministry of the Education and the Presidency of Girls Education in Riyadh	109
4. Distribution Percentage of the Population	109
5. Distribution Sample Numbers Among Administrators and Teachers in Both Girls' and Boys' High Schools	111
6. Item Evaluation.....	115
7. Overall Mean and Standard Deviation of the Participants' Age.....	124
8. Frequencies and Percentage Scores of the Participants' Degrees.....	125
9. Distribution of the Participants' Majors.....	128
10. Overall Mean and Standard Deviation of the Participants' Experiences.....	129
11. Frequencies and Percentages of the Participants Computer Ownership at Home and at School.....	130
12. Frequencies and Percentage Scores Use of Computer.....	132
13. Access to the Internet Based on the Position.....	133
14. Frequencies and Percentage Scores of Utilization the Internet Based Upon the Participant's Position.....	134

15. Frequencies and Percentage Scores of the Participants to the Statement, Students Should Use the Computer in All Curricula.....	137
16. Frequencies and Percentage Scores of Participants' Perception that Computer Technologies Are Great Tools to Improve Learning	139
17. Frequencies and Percentage of Participants' Perceptions toward Using Drill and Practice Computer Applications Will Improve Learning.....	141
18. Frequencies and Percentage Scores of the Participants' Perception toward Using Computer Technology in the Classroom Makes Subject Matter Interesting.....	143
19. Frequencies and Percentage Scores of Participants' Perception toward that Information Technology Assists Students in Problem Solving.....	145
20. Frequencies and Percentage Scores of Participants' Perception toward Using the World Wide Web (WWW) in Instruction Helps to Access Many Different Types of Information.....	147
21. Frequencies and Percentage Scores of the Participants toward Using Multimedia is Important in Enhancing Learning and Teaching.....	149
22. Frequencies and Percentage Scores of the Participants toward Using the Internet in the Classroom Enhances Teaching and Learning.....	151

23. Frequencies and Percentage Scores of Participants toward Using Email and a Listserv Increases the Exchange of Information between Teacher and Students.....	154
24. Frequencies and Percentage Scores of the Participants toward Computer Technology in Education to Motivates Students to Learn.....	156
25. Frequencies and Percentage Scores of the Participants toward the Web Enhances Content.....	158
26. Frequencies and Percentage Scores of Participants toward that Information Technology Supports Cooperative Learning.....	160
27. Frequencies and Percentage Scores of Participants' Perception toward Using Computers in the Classroom in Instruction Helps to Construct Knowledge of Students.....	162
28. Frequencies and Percentage Score of the Participants' Perception toward that All Teachers should Use Information Technology in Instruction.....	164
29. Frequencies and Percentage Scores of the Participants' Perception to the statement, Information Technology Plans should be Written for Schools.....	166
30. Frequencies and Percentage Scores of the Participants toward Teachers Should have Knowledge of Information Technology.....	168
31. Frequencies and Percentage Scores of the Participants toward, Teachers Should be Involved in an Information Technology Plan.....	170

32. Frequencies and Percentage Scores of the Participants toward Developing an Information Technology Mission, Goals and Objectives Is Necessary for Student Learning.....	172
33. Frequencies and Percentage Scores of the Participants toward an Information Technology Plan should Include Integrating the Local and Wide Area Network.....	174
34. Frequencies and Percentage Scores of the Participants toward an Information Technology Plan Should Include Improvements in Teaching and Learning by Using Information Technology.....	176
35. Frequencies and Percentage Scores toward Developing an Information Technology Plan Is Based on the Stakeholders' Vision.....	178
36. Frequencies and Percentage Scores toward Using Computer Technology for Grade Keeping is Efficient.....	180
37. Frequencies and Percentage Scores of the Responses to the Statement that Using Computer Technology for Equipment Inventory Is Important.....	182
38. Frequencies and Percentage Scores of the participants toward Computer Technology Can Help in Textbook Inventory.....	185
39. Frequencies and Percentage Scores of the Participants toward Computer Technology Assists in Organizing Library Catalogs.....	187
40. Frequencies and Percentage Scores of the Participants toward Computer Technology Is Useful in Managing School Budgets.....	189

41. Frequencies and Percentages Scores Responses to the Statement that Computer Technology Can Help to Create Accurate Class Schedules.....	191
42. Frequencies and Percentage Scores of the Participants toward Computer Is an Appropriate Way to Organize Daily Appointments.....	193
43. Frequencies and Percentage Scores of the Respondents toward Computer Technology Makes Communication Easy and Fast for Exchanging Information.....	195
44. Frequencies and Percentage Scores of the Participants toward Easy to Use Computer Technology for Students' Attendance.....	197
45. Frequencies and Percentage Scores of the Participants toward Computer Technology Is Useful for Keeping Track of Students' Information.....	199
46. Frequencies and Percentage Scores of the Participants toward Administrators and Teachers should Utilize Information Technology in Administrative Work.....	201
47. Frequencies and Percentage Scores Responses to the Statement, I Use the Internet for Communication, Such as Email.....	203
48. Frequencies and Percentage Score of the Responses to the Statement, I Have the Ability to Use Basic Computer Functions.....	206
49. Frequencies and Percentage Scores Responses to the Statement, I Have the Ability to Use Operating Systems, such as Windows.....	208

50. Frequencies and Percentage Scores Responses to the Statement, I have the Ability to Use PowerPoint.....	210
51. Frequencies and Percentage Score Responses to the Statement I Can Use a Spreadsheet, Such as Excel, to Analyze Data in order to Represent My Work.....	212
52. Frequencies and Percentage Scores Responses to the Statement, I Have the Ability to Organize My Files on a Hard Drive, Zip Disc, or Floppy Disc.....	214
53. Frequencies and Percentage Scores Responses to the Statement, I Know How to Use the Internet Search Engines in Order to Seek Information.....	216
54. Frequencies and Percentage Scores Responses to the Statement, I Have the Skills to Develop My Own Web Page.....	218
55. Frequencies and Percentage Scores Responses to the Statement, I Can Use Word Processing Functions to Write and Edit My Text.....	220
56. Frequencies and Percentage Scores of the Responses to the Statement, I Have the Knowledge to Use Computers in Administrative Work.....	222
57. Frequencies and Percentage Scores of the Responses to the Statement, I Have the Ability to Select and Evaluate Software for School.....	225

58. Frequencies and Percentage Scores of the Responses to the Statement, I Have the Ability to Select and Evaluate Hardware for School.....	227
59. Frequencies and Percentage Scores Responses to the Question, Have you Taken a Computer or the Internet Course?	228
60. Frequencies and Percentage Scores of the Participants who Have Taken Computer or the Internet Courses or Not.....	229
61. Frequencies and Percentage Scores Responses to the Question, Do you have a Staff Development Plan at your School?.....	231
62. Frequencies and Percentage Scores of the Responses to the Statement, Indicate your Current Need for Computer Training Programs.....	233
63. Frequencies and Percentage scores of the Participants toward Method and Philosophy of Teaching.....	235
64. Constructivist Items and How Many Participants Answered Each Question.....	236
65. Behaviorist Items and How Many Participants Answered Each Question.....	236
66. Box's Test of Equality of Covariance Matrices.....	240
67. Test of the Normality.....	241
68. Correlation.....	243

List of Figures

Table	Page
1. Learning Based on the Constructivism Theory.....	45
2. Resistance to the Change Plan.....	55
3. Initial Phase of Starting the Change Plan.....	56
4. The Process of Change.....	57
5. Maslow's Adapted Hierarchy Shows Priorities in Technology Staff Development and Support Programs.....	67
6. Distribution of the Participants' Degrees.....	126
7. Frequencies of the Participants' Experience.....	129
8. Computer Ownership at Home and at School.....	131
9. Use of Computer.....	132
10. Distribution of Utilizing the Internet Based Upon the Participant's Position.....	134
11. Frequencies and Percentage Scores of Utilization of the Internet Based Upon Position.....	135
12. Distribution of the Responses to the Statement, Students Should Use the Computer in All Curricula.....	137
13. Distribution of the Responses to the statement, Participants Perceptions that Computer Technologies Are Great Tool to Improve Learning.....	139

14. Distribution of the Responses to the Statement, Using Drill and Practice Computer Applications Will Improve Learning.....	141
15. Distribution of the Responses to the statement, Using Computer Technology in the Classroom Makes Subject Matter Interesting.....	143
16. Distribution of the Responses to the Statement, Information Technology Assists Students in Problem Solving.....	145
17. Distribution of the Responses to the Statement, Using the World Wide Web in Instruction Helps to Access Many Different Types of Information.....	147
18. Distribution of the Responses to the Statement, Using Multimedia Is Important in Enhancing Learning and Teaching.....	149
19. Distribution of the Responses to the Statement, Using the Internet in the Classroom Enhances Teaching and Learning.....	152
20. Distribution of the Responses to the Statement, Using Email and a Listserv Increases the Exchange of Information Between Teacher and Students.....	154
21. Distribution of the Responses to the Statement that, Computer Technology in Education Motivates Students to Learn.....	156
22. Distribution of the Responses to the Statement, the Web Enhances Content.....	158

23. Distribution of the Responses to the Statement, Information Technology Supports Cooperative Learning.....	160
24. Distribution of the Responses to the Statement, Using Computers in the Classroom in Instruction Helps to Construct Knowledge of Students.....	162
25. Distribution of the Responses to the Statement, All Teachers should Use Information Technology in Instruction.....	164
26. Distribution of the Responses to the Statement, Information Technology Plans Should be Written for Schools.....	166
27. Distribution of the Responses to the Statement, Teachers should have Knowledge of Information Technology.....	168
28. Distribution of the Responses' Perception to the Statement, Teachers Should Be Involved in an Information Technology Plan.....	170
29. Distribution of the Responses to the Statement, Developing an Information Technology Mission, Goals and Objectives Is Necessary for Student Learning.....	172
30. distribution of the Responses to the Statement, an Information Technology Plan should Include Integrating the Local and Wide Area Network.....	174
31. Distribution of the Responses to the Statement, an Information Technology Plan Should Include Improvements in Teaching and Learning by Using Information Technology.....	176

32. Distribution of the Responses to the Statement, Developing an Information Technology Plan is Based on the Stakeholders' Vision.....	178
33. Distribution of the Responses to the Statement that, Using Computer Technology for Grade Keeping is Efficient.....	180
34. Distribution of the Responses to the Statement, Using Computer Technology for Equipment Inventory Is Important.....	183
35. Distribution of the Responses to the Statement, Computer Technology Can Help in Textbook Inventory.....	185
36. Distribution of the Responses to the Statement, Computer Technology Assists in Organizing Library Catalogs.....	187
37. Distribution of the Responses to the Statement, Computer Technology Is Useful in Managing School Budget.....	189
38. Distribution of the Responses to the Statement, Computer Technology Can Help to Create Accurate Class Schedules.....	191
39. Distribution of the Responses to the Statement that Computer is an Appropriate Way to Organize Daily Appointments.....	194
40. Distribution of Responses to the Statement, Computer Technology Makes Communication Easy and Fast for Exchanging Information.....	196
41. Distribution of the Responses to the Statement, It Is Easy to Use Computer Technology for Students' Attendance.....	198
42. Distribution of the Responses to the Statement, Computer Technology Is Useful for Keeping Track of Students' Information.....	200

43. Distribution of the Responses to the Statement, Administrators and Teachers Should Utilize Information Technology in Administrative Work....	202
44. Distribution of the Responses to the Statement, I Use the Internet for Communication, such as Email.....	204
45. Distribution of the Responses to the statement, I Have the Ability to Use Basic Computer Functions.....	206
46. Distribution of the Responses to the Statement, I Have the Ability to Use Operating Systems, Such as Windows.....	208
47. Distribution of the Responses to the Statement, I have the Ability to Use PowerPoint.....	210
48. Distribution of the Responses to the Statement, I Can Use a Spreadsheet, Such as Excel, to Analyze Data in order to Represent My Work.....	212
49. Distribution of the Responses to the Statement, I Have the Ability to Organize my Files on a Hard Drive, Zip Disc, or Floppy Disc.....	215
50. Distribution of the Responses to the Statement, I Know How to Use the Internet Search Engines in order to Seek Information.....	217
51. Distribution of the Responses to the Statement, I Have the Skills to Develop My Own Web Page.....	219
52. Distribution of the Responses to the Statement, I Can Use Word Processing Functions to Write and Edit My Text.....	221

53. Distribution of the Responses to the Statement, I Have the Knowledge to Use Computers in Administrative Work.....	223
54. Distribution of the Responses to the Statement, I Have the Ability to Select and Evaluate Software for School.....	225
55. Distribution of the Responses to the Statement, I Have the Ability to Select and Evaluate Hardware for School.....	227
56. Distribution of the Responses to the Question, Have You Taken a Computer or the Internet Course?.....	229
57. Distribution of the Responses to the Question, Do You Have a Staff Development Plan at You School?.....	231
58. Distribution of the Responses to the Statement, Indicate your Current Need for Computer Training Programs.....	233
59. Distribution of the Participants toward Method and Philosophy of Teaching.....	235
60. Estimated Marginal Means of Information Technology Plan.....	238
61. Estimated Marginal Means of Information Technology in Instruction	239
