# today

- **Using the UPDATE Command**
- **Using the REPLACE Command**
- **Using the DELETE Command**

# Using the UPDATE Command to Modify Records

```
UPDATE table_name  
SET column1='new value',  
    column2='new value2'  
[WHERE some_condition_is_true]
```

# Using the UPDATE Command to Modify Records

```
UPDATE address SET info = 'nothing';
```

```
UPDATE address SET group_id='2' WHERE  
id = '6' ";
```

```
UPDATE address SET group_id = group_id  
- 1 WHERE id = 6;
```

# Using the REPLACE Command

```
REPLACE INTO table_name (column list)  
VALUES (column values);
```

**\*DELETE and re-INSERT**

# Using the REPLACE Command

```
REPLACE INTO address VALUES  
(1, 2, 'ahmad', 'a@aa.c ', ' ', '05002501');
```

# Using the DELETE Command

```
DELETE FROM table_name  
[WHERE some_condition_is_true]  
[LIMIT rows]
```

# Using the DELETE Command

```
DELETE FROM address;
```

```
DELETE FROM address WHERE id = 2;
```

# Using the DELETE Command

```
DELETE FROM table_name  
[WHERE some_condition_is_true]  
[ORDER BY some_column [ASC | DESC]]  
[LIMIT rows]
```

```
DELETE FROM address ORDER BY id  
DESC LIMIT 1;
```

The End

**Thank you for listening**
