# Standrization of Foot Plantar pressure For Healthy Male subjects

*By*

Mohammad A. Gharawi

416000853

Waleed F. kalah

416000391

Supervised by

Dr Saleh S. Al -Tayyar

Dr. Mohammad Z. Ben Diaballh

Graduate Students

2001-1421

## **ANATOMY OF THE FOOT**

Ossification of the bones	1
Tarsus	2
Metatarsus	7
Phalanges	9

## **COMMON FOOT AND ANKLE ABNORMALITIES**

Plantar Fasciitis	10
Achilles Tendonitis	11
Bunion	12
Hammer Toes	12
Corns	13
Calluses	14
Morton's Neuroma	14
Dropped Metatarsal Heads	15
Metatarsalgia	16

## **DIABETIC FOOT PROBLEM**

Introduction	17
Peripheral vascular disease	17
Diabetic Neuropathy	18
Charcot neuroarthropathy	19
Other risk factors for foot ulcers	19

## **PLANTAR PRESSURE ASSESMENT**

Introduction	22
Measurement technology	23
System selection	27
Current technology and system specifications	29
Clinical application	32

## METHODOLOGY

Static test	34
Dynamic test	37
Static result	37
Dynamic result	47
Discussion	52
Conclusion	53
