Samir Doukani
Hamdi Abdelaziz
Mostafa Muhamed
Javed Iqbal

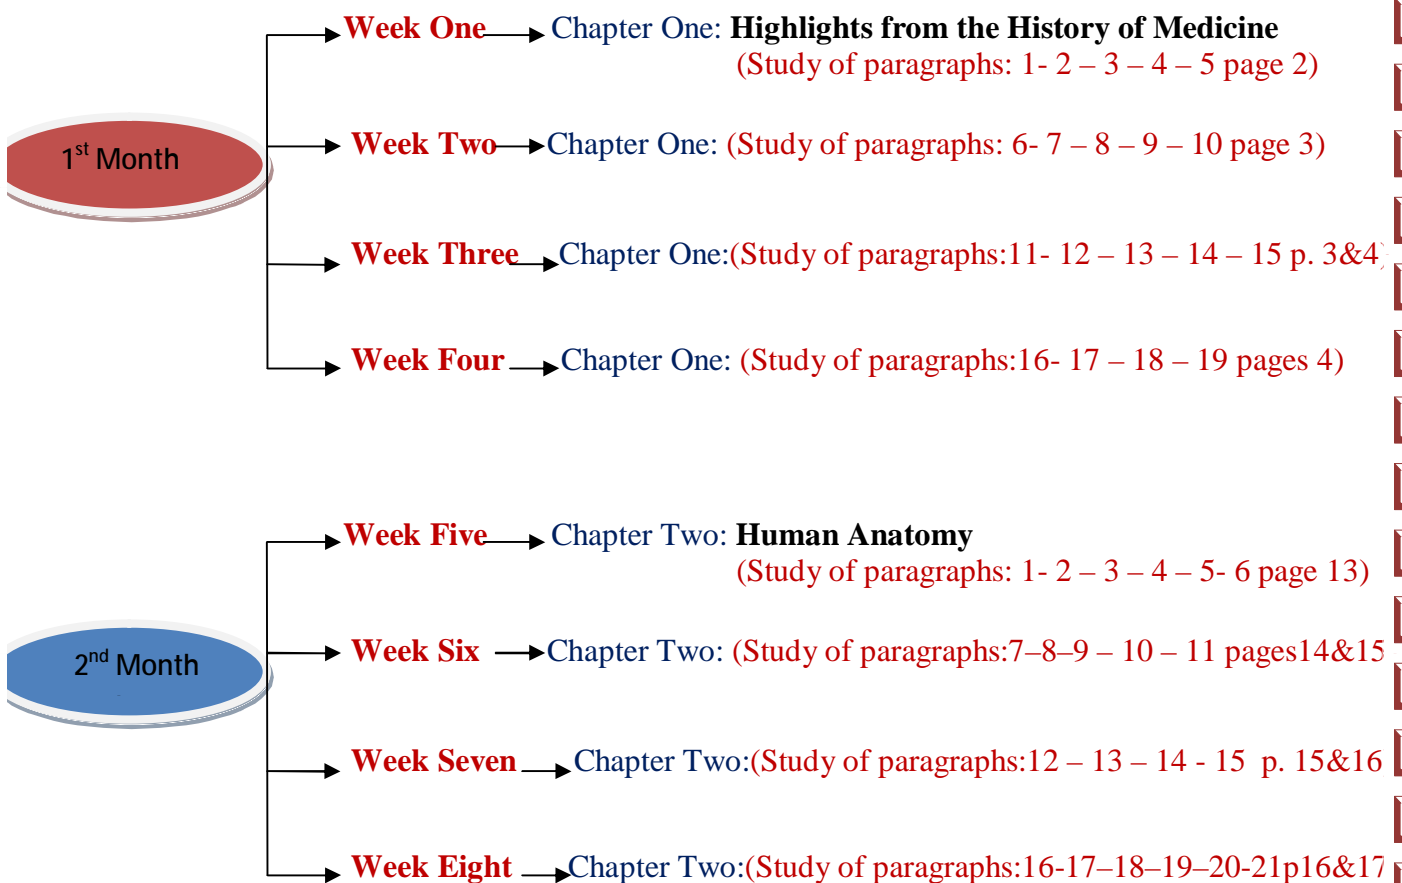

INTRODUCTION

This section aims at providing the students with a set of exercises, given as homework, to help them reach the following objectives:

1. Getting acquainted with the medical vocabulary used in the texts.
2. Using different reading skills such as skimming and scanning for a better understanding of the medical text included in each chapter.
4. Training the students to be familiar with different types of exercises (format) given in the mid- term tests and final exam.
3. Using the acquired information as a background for the students future studies.

HOMEWORK DISTRIBUTION PLAN

The following is a monthly distribution plan that includes four homework which provide the students with a thorough revision before the exams.

3rd Month

- **Week Nine** → Chapter Three: **Disease: Its Symptoms and Treatments**
