The Social Design For high Residential Complexes

Dr. Nouby Mohamed Hasan *

Abstract:

This paper focuses on: () the relationship between the design of high housing buildings and absence of the social relationships in the society of the city; () the absence of social dimension on the design of tall and high housing buildings.

The paper hypothesizes that the design order of tall and huge housing buildings is one of the most reasons of absence the social relationships in the society of the city.

The main aim of this research is to demonstrate how we can make the tall housing buildings is very sociality.

In this respect the paper is comprised of four parts: (), an introduction approach which contain the problematic, hypothesis, aim, and methodology of research; (), verify the hypothesis of research; (), how we can make the tall housing buildings is very sociality. (), results and recommendations.

* Assistant professor, Department of Architectural and Building Sciences College of Architecture and Planning, King Saud University, Riyadh.
