Teaching Strategy

- Lectures.
- Tutorials/ (PBL) Problem Based Learning sessions.
- Practical Sessions (dissection /demonstrations).

Following the above mentioned teaching strategy students are assessed by written and practical examinations consisting:

- Two Quizzes
- Three continuous assessments
- At the end of the year final comprehensive examination.

Examinations schedule and distribution of marks:

- **First semester:**
 - First Quiz in week 7. (5 marks)
 - First continuous assessment (Mid-semester exam) (15 marks)
 - Second continuous assessment (Mid-year exam) (20 marks).
- **Second semester:**
 - Second Quiz in week 7. (5 marks)
 - Third continuous assessment (Mid-semester exam) (15marks)
 - Final exam (End of year exam): (40 marks).

Examination Format:

1. Continuous Assessment Examination:

- **Written exam.** (carrying 75% of total marks) consists of **30 Questions** distributed as follows:
30 Questions: Students are to choose 'one best answer' from five given options (no negative marking)
- **Practical exam.** (Carrying 25% of the total marks) consists of identification (bone, soft tissues and X- ray).

2. Final Examination:

- **Written exam.** (carrying 75% of total marks):

60 Questions: Students are to choose 'one best answer' from the five given options (1/4 negative marking).

- **Practical exam.** (carrying 25% of total marks): consists of identification of ten specimens (bone, soft tissues and X-ray).

3. *Quizzes:*

- Each Quiz will consist of **8 Questions:**

8 Questions: Students are to choose 'one best answer' from five given options (1/4 negative marking) .

Examination Contents:

1. *First continuous assessment:*

- Comprehensive exam (i.e. all topics studied from the beginning of the academic year are included).

2. *Mid-year exam:* comprehensive exam:

- One third of questions are related to topics included in the first continuous assessment.
- Two thirds of questions are related to the rest of topics studied during the first semester.

3. *Third continuous assessment:*

- It will include topics studied during the second semester until the time of the exam.

4. *Quizzes:*

- Topics of each quiz will cover all subjects a week before the time of the exam.

5. *Final examination:*

- It is a comprehensive exam. (i.e. All topics studied through the academic year will be included in the final exam).
- **30% of the questions are related to the topics studied during the first semester.**
- **70% of the questions are related to the topics studied during the second semester.**

Re-sit examinations:

1. *Continuous assessments and Quizzes:*

- The absentees should submit genuine reason to the chairman of Anatomy Department within **One Week** from the date of the exam. Only those students will be allowed to take the re-sit exam whose excuse is accepted by the chairman of the department.
- Re-sit exam will be in the form of **essay written exam**.

2. *Final exam:*

It carries 100 marks and the distribution of the marks will be as follows:

Written exam: 70 marks.

Practical exam: 30 marks.

N.B

There is no re-sit in the final exams for the courses based on semester.
