

Cheating

Dear Dr. Reima

When I came to this university I have noticed something just in level 2. it is the cheating on tests. The students have cheated on all the exams and they think that it isn't prohibited or barred!! Believe me teacher I can't sleep in the night

because of thinking about this cause. Even I saw them in my dreams.

I feel that I'm responsible for them because Allah Will ask me about this trust. In the last exam(listening) I saw unexpected students and I was so sad all that day. Unfortunately I can not advise them I do not know why. One day I talked with one

of them about the cheating I said: but it is unworthy grades, she said: but here in this university we can not pass the exams because of the difficulty of the questions!!

I think it is difficult to tell the teachers before we advise them. Dalal has told Dr. Shadyah about this, she was disappointed with them because she trust them but they did not care about this.

Dr. I am sorry to bother you by these complaints but I am really grateful you if you tell me what should I do??? Please teacher I can not stand this situation.

Sincerely yours,
Ghadah(the sad student)
