

**Dear Dr. Reima,**

**I want to thank you for the gift you gave me today. It is without doubt the best gift I have ever had. I wanted to have a picture of yours but you said before that you are not ready to give away any of your memories. And the note is very great and useful (actually my elder brother wanted to have it so bad it means a lot to me to have a note you designed . So thank you very very much for this gift that is close to my heart. You do not have a clue about the joy I felt once I saw it. I'm not finished with expressing my feelings but I am out of words.**

**THANKS**

**yours,  
Looly**
