Houghton Mifflin Presents:

Teaching Second Language Writing with Houghton Mifflin's At a Glance Series

John Baker
Tamkang University
Taiwan

Abstract:

Do you need a comprehensive writing textbook series that guides students through each stage of their growth as writers by providing clear instructions, step-by-step activities, abundant reading selections, opportunities for writing, easy-to-understand instructions on how to perform self and peer assessment, and a CALL platform for additional practice; are you looking for a text that helps students make transitions between stages; or are you looking for a text for a particular student level? If you answered yes to either part of this question, then Houghton Mifflin's At a Glance Series may be just what you are looking for. To demonstrate how this series can help you help your students reach their goals, this presentation will explore how the books in the series--At a Glance Sentences, At a Glance Paragraphs, At a Glance Essays, and At a Glance Reader--create a comprehensive package that can be used in a variety of settings.
