Appendix

(Appendix VII): Frequency of nurses' opinion about availability of tools

Items	Yes	No
1. Adequate of clinical and professional supplies	45%	55%
2. Adequate staff number	57%	43%
3. Good staff classification	53%	47%
4. Attendance training program about caring with suicide attempt patient	19%	81%
5. Adequate clinical training to deal with suicide attempt patient	29%	71%
6. Adequate salary in working with suicide attempt patient	6.5%	93.5%
7. Adequate supervision during your work	74.5%	25.5%
8. Adequate safety measures in work place	36%	64%
9. Knowing the legal aspects that regulate responsibilities of nurse, doctor, and patient	42.5%	57.5%
10. Presence of psychotherapist in the work place to help to express nurses feelings especially negatives	36%	64%
11. Enough knowledge about suicides attempted (causes and ways of suicide)	54%	46%
12. Nurse opinion that patient is: does not has faith	80.5%	13%
13. Nurse opinion that patient is: need to help	94%	6%
14. Nurse opinion that patient is: has goals in his attempt	80.5%	16.5%
