2. Consequences of non coverage of topics	This item is intended to draw attention to consequences for the program when topics could not be given the time that was planned. For any topics that were not given the time planned comment on whether you believe this is a significant problem for the program and suggest possible compensating action. For example it might be possible to provide special seminars or include extra topics in a later course.

4. Recommended changes or processes for improvement	If the description under 3 indicates action is required what would you recommend?

<b>C. Results</b>	
1. Number of students starting	Indicate the number of students who enrolled and actually started attending classes at the beginning of the semester.
2. Number completing	This should be the number who attended classes until the end of the semester regardless of whether they passed or failed.
3. Distribution of grades	Show the distribution of grades or percentage marks using the system normally applied in the institution.
4. Results summary	Show the numbers and percentages of students who passed, failed etc.
5. Special factors	Include a brief explanation if there were any unusual events or circumstances that might have affected the grade distribution.
6. Variations from planned assessment processes. a. Variations from the planned schedule  b. Variations from the assessment strategies for different domains of learning	If there were any variations from the schedule of assessment tasks and or assignment activities indicate the change that was made and the reasons for it.  If there were variations from the strategies planned for assessing students learning in different domains of learning as set out in the course specification indicate the changes that were made and the reasons for them.
7. Verification of standards of achievement	Explain what was done to check that the standards applied in assessments of students work were valid and appropriate.

<b>D. Resources and Facilities</b>
