Pharmaceutical  
Society  
of Great Britain**

## **REQUIREMENTS FOR REGISTRATION IN CHINA**

In order to register and work in China you must first pass an exam set by the State Food and Drug Administration. The exam will include tests on Drug Administration & Regulation, Pharmacology, Pharmaceutical Analysis, Pharmaceutical Prescription and Pharmaceutical Chemistry. The examination language is Chinese. The Pharmacy Licence will be issued only after successful completion of the exam.

Registration in China will be undertaken by a Local Pharmacy Board. For further information on these local boards and there registration procedures we would recommend contact the member ship organization, the Chinese Pharmaceutical Association. There contact details are as follows.

The Registrar  
Chinese Pharmaceutical Association  
A-38 Beilishi Road
