1) Please provide feedback on the content and layout of the proposed form (Appendix 1). What would you add or take away? Would you amend the formatting?

The layout is much improved, it is much more user friendly as a two page document
Would be good if some public health issues could be included in questionnaire - such as smoking advice etc

Under "review identified / requested by" could you add an additional tick box for carers

2) Please give your view on the usefulness or otherwise of a pre-MUR questionnaire (example text set out in Appendix 2).

Think it is useful to have this as a guide. Queries around would it need to be available in different languages, it take up pharmacy staff's time to help patient's fill it in?

3) Should the use of a pre-MUR questionnaire be mandatory?

Yes No

Reasons: It should not be a mandatory requirement as many of the questions in the pre-MUR questionnaire would be asked when completing an MUR anyway - however, it would be useful to have as a tool

4) Should the use of a *specific* pre-MUR questionnaire be mandatory, or should contractors be free to develop their own documentation?

Yes No

Reasons: It s become good practice to use specific pre-MUR questionnaire but pharmacists should be able to alter it if they would like to access additional information.

5) Should there be a standardisation of the paper colours used in triplicate MUR form pads?

Yes No

Reasons: Easier to work out who gets which part of form!

6) Any other comments?

Much better - even better if it becomes electronic!
