

IE 516 – Manufacturing Planning and Control

Fall 2014

Home Work # 5

Q1. Problem 7.1, 7.2, 7.3, 7.5, 7.6, 7.7, and 7.9 from Pinedo Book.

Q2. Problem 7.12 from Pinedo book. (Note: Make sure that the bounds that you give are useful, in the sense that you can try and evaluate the quality of your solution based on the bounds. In other words, do not say $-\infty$ and $+\infty$ as the solutions!)
