

NICE GUIDELINE

SARA A ALOSAIMY, BSC PHARM

WHAT IS NHS AND NICE

- ❑ The National Institute for Health and Clinical Excellence (NICE) was set up in 1999 to reduce variation in the availability and quality of NHS treatments and care - the so called 'postcode lottery'.
 - ❑ NICE evidence-based guidance and other products help resolve uncertainty about which medicines, treatments, procedures and devices represent the best quality care and which offer the best value for money for the NHS.
- 

WHAT IS NHS AND NICE

- ❑ NICE produces public health guidance recommending best ways to encourage healthy living, promote wellbeing and prevent disease.
 - ❑ NICE is for public health guidance is for local authorities, the NHS and all those with a remit for improving people's health in the public, private, community and voluntary sectors.
