Patient care

Medical care to pediatric inpatients: This includes children referred to me by pediatricians from within the University Hospitals, other hospitals in Riyadh and from all the regions of the Kingdom. Children with general pediatric diseases are hospitalized under my care during my regular on calls. Those with gastrointestinal conditions are hospitalized through my GI clinic or referred from other hospitals in Riyadh and from all the regions of the Kingdom.

Pediatric gastroenterology clinic: Weekly clinic where children with complaints related to the gastrointestinal system are evaluated. These includes children referred to me by pediatricians from within the University Hospitals, other hospitals in Riyadh and from all the regions of the Kingdom.

Performance of diagnostic procedures:

- Pediatric gastrointestinal endoscopy (upper GI endoscopy, rectosigmoidoscopy and colonoscopy).
- The 24 hour esophageal ph monitoring.
- Manometry.
