## Course Specification

- Institution : King Saud University
- College/Department: Nursing

### A Course Identification and General Information

1. Course title and code: Nursing and Health Care (NUR115)
2. Credit hours: Two Hours
3. Program(s) in which the course is offered. Bachelor Degree in Nursing (If general elective available in many programs indicate this rather than list programs)
4. Name of faculty member responsible for the course: Mr. Abdulaziz Almutairi.
5. Level/year at which this course is offered: 1 <sup>st</sup> level
6. Pre-requisites for this course (if any): None
7. Co-requisites for this course (if any): None
8. Location if not on main campus: Nursing College

## **B Objectives**

1. Summary of the main learning outcomes for students enrolled in the course.

This course focuses on the study of the characteristics and components of health care delivery systems. Types of health care organizations will be discussed in terms of the global health for all strategy. A discussion of recent trends in the health professions will provide the basis for the nursing profession, its scope and core of practice, characteristics, regulatory framework and the changing role of nursing in support of health services and human resource development.

2. Briefly describe any plans for developing and improving the course that are being implemented. (eg increased use of IT or web based reference material, changes in content as a result of new research in the field)
