### **Pediatric Anesthesia Experience and Training:**

I was a Fellow in Pediatric Anesthesia at the King Faisal Specialist Hospital & Research Center. The Fellowship in Pediatric Anesthesia has been accredited by the Saudi Council for Health Specialties and is a two year program.

The Fellowship in Pediatric Anesthesia commenced in December 2004 and I am one of the first two Fellows in this program. I graduated in November 2006.

The program is based at KFSH&RC with the first 12 months concentrating on anesthesia for general pediatric surgery. This was then followed by rotations to cardiac surgery, PICU, NICU, pain clinic, pre-anesthesia clinic, NGH (trauma and acute neonatal cases), neurosurgery and ophthalmology.

After my fellowship graduation I provided anesthesia for such cases:

- Siamese Twin Separation, King Abdulaziz Medical City, Riyadh (NGHA)
- Neonatal Emergency
- Thoracoscopy PDA ligation
- Thoracotomy and lobectomy
- Robotic Procedure for pediatric surgery
- Craniotomy and tumor excision
- Bronchoscopy and airway management for children.
- Neuroaxial and peripheral block.

### **TEACHING ACTIVITIES:**

#### **Lecturer and tutor:**

1. PBL (Respiratory, musculoskeletal, CNS, CVS, Renal, Hematology) 2010- present
  1. Basic and Advance life support (CPR courses) - 2000- 2005
