

HW #3: Motion Study

Homework Requirements:

1. For the one task of the real life job you have chosen and reported in homework number two, fully describe it (story format comprehensive enough to produce the required chart), write a list of the therbligs that comprise its motion sequence in a right hand/left hand chart and label each basic motion with a brief description.

Instructions:

1. This is a group assignment (maximum 2 students in each group).
2. This homework will be graded for:
 - a. thoroughness of task description,
 - b. thoroughness of breaking down the chosen task into basic motion elements (therbligs), and
 - c. compliance to homework requirements, and report organization.
3. Watch out for spelling and grammar mistakes.
4. Refer to course policies for guidelines on assignments submission.

Hint:

You may do some background check on the task you have chosen to get a sense of what therbligs to expect from your real life worker.
