

Iftar Saem Tents in Ramadan

عبدالكريم عبدالسلام الدخيل
احمد علي الحربي
مشاري محمد المحسن

What is the problem we will solve it

- Facilitate the search for mosques that provide fasting service .
- Facilitate the distribution of food from distributors (charitable companies, philanthropists).

Main Map

Data description

- The source in this project is workers in each mosque
- we use google maps to collect information and location

We use two function in our maps :

1-In buffer The distance 2km

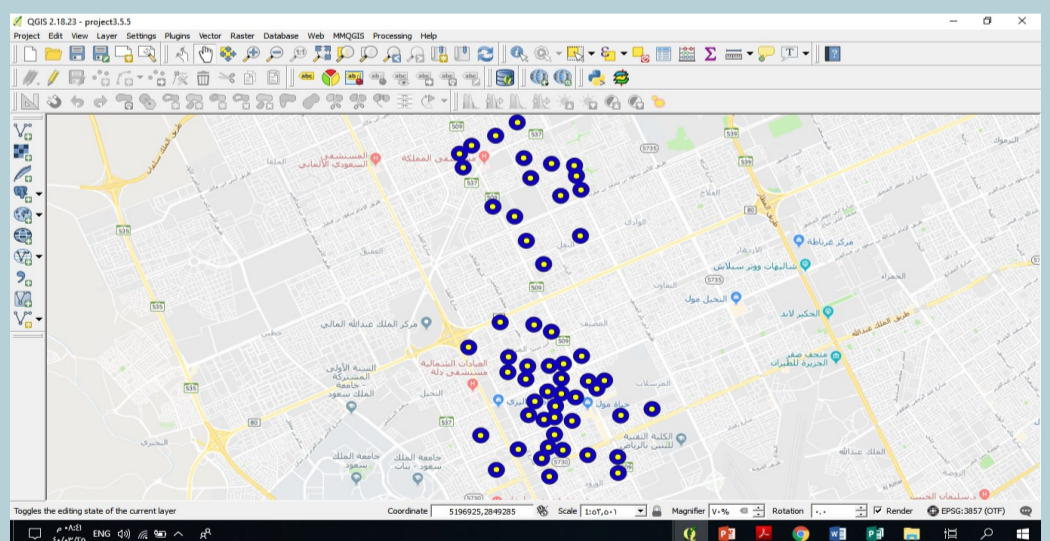

2-In heat maps use

A- 1-2 Light color

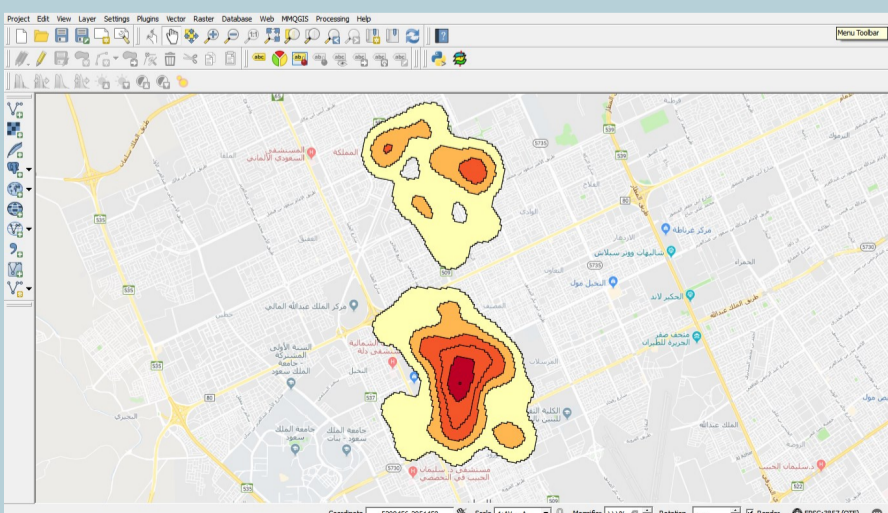

B- more than 2 to 4 more lighter and less darker

C- More than 4 more darker color

Buffer Analysis

Heat Map Analysis

Main conclusions :

many iftar saem tents around the mosques that are located in a working place .
